

IAEI BENJAMIN FRANKLIN CHAPTER

IAEI MEMBERS, CONTRACTORS, INSPECTORS, ENGINEERS,
ARCHITECTS, ELECTRICIANS AND ELECTRICAL PROFESSIONALS

SEPTEMBER GENERAL MEETING

The Benjamin Franklin Chapter of the IAEI is proud to announce that Mr. Carter Borden, member of the Board of Directors for the Chapter, will be our featured speaker for the general meeting this month. Since 2005, Mr. Borden has operated a successful electrical contracting venture in the Philadelphia market called Polaris-Brown, LLC. The business specializes in communications systems and fire alarm installations. It is from the latter specialty that we are asking Carter to educate us.

Our presentation this month will feature a discussion of the rules associated with Fire Alarm Systems. We will look at the Article 760 requirements (2017 NEC) and the 2018 Philadelphia Fire Code. Why do we need fire alarm systems? When is a fire alarm system required? What is the process to get a permit for a fire alarm system? What are the communication requirements for fire alarms in the new city code? Who certifies fire alarm systems? What deficiencies are common? So much information, so little time! Don't miss this opportunity to make yourself better! Code-compliant installations pass the first time!

All attendees who register will receive a CEU Certificate reflecting 2 hours (0.2 CEUs) of training.

PLEASE NOTE THAT PHONE RESERVATIONS ARE NO LONGER AVAILABLE
